

Mission & Achievement

School No. – 50016

Education is the most important learning in a man's life. An educated man is never a failure. He has the confidence and courage to experiment and excel in life. He is self-motivated as he is learned and never threatened by challenges. Education enables you to aim for stars and create success stories. It is not always academics that define knowledge but development of one's being is equally important. We at DAV Sherghati are there to guide and guard the students through it. The students are the fore runners of this country and we wish to nurture the best. We ensure that the students are given the right impetus to grow and the knowledge to face challenges of life. Our sole aim is to tap your potential and support you through your learning during year. Let the world be your canvas and strive to paint the brightest picture. For us every child is special and the process of teaching is henceforth custom made to suit the needs. We reinvent our methodologies with time to deliver the best. Ample provisions and space are available for academic, co-curricular, sports & moral excellence. The students must always remember that a successful man is always a meticulous blend of knowledge and values. Moral and ethical learning are the core of every achiever. We believe in nurturing one

of a kind leader and practitioners who are both educated and hold a strong moral code of conduct. Respect and discipline are the saviors in today's morally decadent society. The students are the harbingers of change. They will be the future flag bearers of nation. We are proud to join hands with parents in grooming children. We both share the same dream -to ensure a bright future. We at DAV Sherghati believe that a child imbibes what he sees. Therefore, it is pertinent to switch roles from being a mentor to a guardian to a counselor and at the best to lead by example. Our staff and curriculum is designated and designed to educate and encourage our students. Our mission is students' holistic development. In the coming years, they will be true global citizens facing challenges in the world. In order to be successful, they have to be well prepared and focused. Students are the Kohinoors of DAV and always do us proud. Make the best of your time at school, explore opportunities, broaden your horizons,

Create your success stories and shine the brightest.
Keep on Aspiring, Acting & Achieving!!!

Sunil Kumar Verma ,
Principal
